DETAILED ACTION

This Office Action is responsive to the applicant's amendment filed on Nov. 20, 2006

Claims 1, 9 and 12 have been amended. Claim 4 has been canceled. Accordingly, claims 1-3 and 5-17 are pending in this application.

Drawings

1. The drawings were received on Nov. 20, 2006. These drawings are acceptable.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-3 and 5-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims are indefinite as to their scope because there is an inconsistency between the language in the preambles and the body of the claims. That is, in claim 1, for example, the preamble recites "a compressor assembly", yet the body of the claim makes several references to the inlet/outlet bearings and a choke orifice. Note that a preamble to a claim is denied the effect of a limitation where the claim is drawn to a structure and the portion of the claim following the preamble is a self contained description of the structure not depending for completeness upon the introductory clause, clearly the claims of record do not reply on the introductory clause for completeness. See *Kropa v. Robie*, *supra* at 480. See also *Ex parte Mott*, 190 USPQ 311, 313 (PTO Bd. of App. 1975).

Art Unit: 3748

Claim Objections

3. Claims 9-12 are objected to under 37 CFR 1.75(a) as failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Regarding claims 9 and 12, this can be corrected by inserting the following in line 2, 3 and 4 following "a/said screw": -- compressor--.
